

Why is home care the right decision?

We know that 95% of seniors prefer to remain in the safety, comfort & familiar surroundings of home.

Home care can improve quality of life, allowing our clients to maintain their lifestyle & dignity, and to remain independent for as long as possible.

You can rest easy knowing that AmeriCare caregivers are there to assist with the challenges of daily living, ensuring that your loved ones remain near neighbors, with beloved pets and in their usual routines.

Life doesn't happen according to schedule...

AmeriCare HomeCare is a Safe Solution...

There is no place like home, as long as home is a safe environment. It is estimated that at least one third of people in the United States, over the age of 65, suffer a significant fall each year. Falls have become the leading cause of injury deaths among this population.

Home care may effectively prevent the likelihood of falls, accidents, kitchen injuries, and wandering. One-on-one caregiver attention may greatly reduce the risk of acute illness, as well.

Living independently does not have to mean being alone. Caregiver assistance can reduce stress and anxiety. Family members can rest easy knowing their loved ones are in experienced & caring hands.

Living at home provides a better quality of life and is often less costly than alternatives. AmeriCare HomeCare enables clients to remain independent and thrive in the comfort of a safe home environment, for as long as possible.

Not Just Anyone Becomes an AmeriCare Caregiver

- ▶ The AmeriCare personalized screening system is designed to maximize your peace of mind.
- ▶ All our caregivers are thoroughly interviewed & references are verified.
- ▶ All our employees pass a rigorous background screening & driving record check.
- ▶ All of our caregivers have a broad range of experience and expertise.
- ▶ AmeriCare conducts a complete orientation and on-going training with all caregivers.
