

Why Commonwise?

Commonwise offers a refreshing alternative to traditional home care providers.

We developed our own system to find, recruit, hire, and train compassionate caregivers. We treat our Caregivers with the same respect we show our clients. And we pay Caregivers industry-leading wages.

Other providers may offer basic support for a lower cost, but they struggle to consistently deliver quality care.

Contact our team today. We can typically begin providing care within 24 to 48 hours.

Scope of Care

Care increments are available from 4 to 24 hours per day.

Payment

Our services are billed hourly, and we invoice directly. We accept most long-term care insurance plans.

What is home care?

Most older adults prefer to receive care in the comfort of their home. Unfortunately, managing their daily needs can put tremendous strain on a family.

Our Caregivers provide personal care services that preserve the comfort, dignity, and safety of your loved ones where they truly want to be — at home.

The Commonwise Difference

Industry-leading caregiver wages lead to better quality care. Here's how:

We pay generously

Our ability to provide better client care starts here. It's simple: better pay attracts higher quality Caregivers.

We select thoughtfully

Our focus is on hiring Caregivers with the personal skills and emotional intelligence to enrich your loved one's life.

We train extensively

In-home care is as much hospitality as it is healthcare. Every Caregiver completes our proprietary training program which prepares them for the unique challenges of providing care in someone else's home.

We support creatively

We don't try to manage our Caregivers from behind a desk. Our Care Managers regularly deliver coaching and feedback in the home. This leaves Caregivers feeling supported and clients being heard.

We deliver confidently

Our approach enables us to attract and retain Caregivers who can consistently deliver high-quality home care.

Better pay. Better care.

“The care from Commonwise Home Care was superb and worth the slightly higher hourly cost, and the staff had a much higher emotional intelligence than other groups. I would not look any further than Commonwise.”
