MEET YOUR CHARLESTON SENIOR RESOURCE SPECIALISTS

Hi there! We're Joshua and Anne Marie Long.

We met while working as competitors at separate senior living communities. Aside from our personal connection, one thing we instantly agreed upon was that our parents and grandparents were part of a greatly underserved, aging population. With so many individual companies competing for their attention, how could they hope to know their best options? We took our combined decade-plus of experience and host of connections, and created the ideal resource to help these families in need. Don't go it alone. Let us be your senior resource specialists!

**Personalized recommendations when you
need them, NEVER at any cost!**
