# CAN WELLDOM HELP ?

**We create solutions**

Home Safety Assessments	Assessments to ensure that clients' homes are safe and conducive to aging in place, identifying potential hazards and recommending improvements to enhance safety.
Hospital Discharge Preparation	Assists clients in preparing for and transitioning home after a hospital stay, ensuring a smooth and safe return to their familiar environment.
Caregiver Support and Training	Involves providing support and education to caregivers, helping them care for their loved ones effectively and sustainably.
Diabetes Coaching	Coaching and guidance to individuals managing diabetes, helping them better understand and manage their condition within the context of aging in place.
Occupational Therapy	Valuable in helping individuals maintain their independence by improving their ability to perform everyday tasks and activities.
